VOLUME LXIV., NUMBER 16.

REDWOOD CITY, SAN MATEO COUNTY, CALIFORNIA, SATURDAY, JULY 19, 1924.

ONE DEAD, ONE DIEING FROM INJURIES

One man is dead and another not expected to live from injuries received at the cement plant here this week.

M. J. Vermulen of 344 Mission street, San Francisco, a pipe fitter was struck on the head Thursday by a 2x4 timber dropped from a high scaffold from which he passed away a few hours later. Vermulen was 41 years of age and is survived by a wife and four children, all living in San Francisco. He died in the San Mateo County Community hospital.

Liberto Terranova of 185 Ellisworth street, San Francisco, a carpenter 23 years of age, and unmarried, is at this time going to press at the point of death in the Community hospital, as the result of a fall from a staging on Wednesday. Terranova is suffering from a fractured skull and numerous broken bones. No hope is held for his recovery.

Dr. Herbert Clattenburg was summoned in both cases and took them to the hospital. The injuries were so serious, however, that there was no chance of saving either life.

WOODSIDE NEWS OF IMPORTANCE

Mrs. Herbert Allen entertained a party of twenty guests at a picnic luncheon on Tuesday. The tables were laid in the Jackling grove which is a veritable Sherwood Forest and constitutes one of the finest tracts of virgin oak timber to be found along the peninsula.

A number of our Woodside people were guests at the picnic dinner given on Saturday evening at the Menlo Country Club. Among them were Mr. and Mrs. William Roth, Mr. and Mrs. Daniel C. Jackling, Mr. and Mrs. Arthur Hooper, Mr. and Mrs. Nathaniel Messer, Mr. and Mrs. Frank Hooper, Mr. and Mrs. Ettore Avenall and Dr. and Mrs. George Lyman.

Mr. and Mrs. Albert Meyer have returned from their motor trip through Northern California, Oregon and Washington.

Mr. and Mrs. Fred Michall are spending the summer at Big Basin.

Mr. and Mrs. Von Savoye and their son Raymond have just returned after a stay of several weeks at La Honda.

Mr. and Mrs. A. H. Audiffred gave a dinner party last week to a party of eight of their San Francisco friends.

Miss Helen Langley has been visiting her sister, Mrs. Bothwell in San Jose.

Jack Bonford, one of the graduates from the Woodside school this year, is spending the summer at Lake Tahoe.

Mr. and Mrs. Oscar Blackington and family returned on Thursday from a motor camping trip through Mendocino county.

Mr. and Mrs. William Langley and family have been spending part of their vacation at their ranch near La Honda.

Mrs. William Lawson of Pasadena has been visiting her mother, Mrs. Bradford Leavitt, Mrs. Lawson has returned to Pasadena, but will be back at Woodside again later in the season.

Hugh O'Neill and family have returned from a two weeks' vacation party at Monterey.

Mary Volpiano is visiting friends in San Francisco.

J. M. Litchfield thinks much less of the science of "water-witching" than he did a few weeks ago. Upon the assurance of one considered an adept at locating water by means of a honing hazel wand, that he would find water at a certain place at a depth of thirty-five feet he started the sinking of a large sized shaft to supplement the supply of the Bear Gulch Water Works Co. After going down about seventy feet he finds himself apparently as far from water as when he left the surface.

WILL VISITORS BE MADE TO FEEL SINCERELY WELCOME THE MINUTE THEY SET FOOT INTO YOUR HOME?

THE WARMTH OF YOUR WELCOME CAN BE EMPHASIZED BY A CHOICE SELECTION OF FURNITURES.

OUR FIXTURES ARE SUCH AS WOMEN CALL "ADORNABLE" THERE'S A SENTIMENTAL BEAUTY ABOUT THEM WHICH AFFECTS ONE MUCH THE SAME AS A RARE OIL PAINTING DOES.

WE WOULD APPRECIATE A CALL FROM YOU SO THAT WE MAY SHOW YOU OUR ATTRACTIVE LINE OF FIXTURES.

Fire Chief Injured in Explosion

As a result of an explosion which occurred last Wednesday night, a fire house in San Carlos, Edward Wheeler, chief of the San Carlos fire department is in the Community hospital suffering from a badly burned face and a broken nose.

The explosion occurred when, following the return of the firemen from a fire in some trees near San Carlos, the chief was about to re-charge the large chemical tank of the fire truck. For some reason the tank had not been exhausted and the remaining pressure in the tank threw the heavy lid of the tank into Wheeler's face when he loosened the screw that holds it in place.

The injured man is under the care of Dr. Herbert Clattenburg of this city, who reports that he has every chance for a complete recovery.

DIAMOND TIRES LEAD IN LOCAL BALL LEAGUE

The Diamond Tires took the lead in the local league last Sunday when they sent the Independents down to defeat with a score of 3 to 2. On the same day the National Magnetics defeated the Ford Motors, who had so far gone undefeated by a score of 9 to 8. The latter game was one of the most hotly contested of the series, having continued into the 12th inning.

The standing of the various teams in the league at present is as follows:

Team	Won	Lost
Diamond Tires	5	1
Ford Motors	4	1
National Magnetics	3	4
Independents	2	6

Tomorrow there will be two games played on the local diamond: National Magnetics vs. Diamond Tires and Independents vs. Ford Motors.

Grocer Plans New Store

A contract was made this week by George Demma, who conducts a grocery store at the corner of Main and Cedar streets, with Gus Walter for the remodeling of the building in which the grocery is now located. The plans call for the addition of 34 feet to the present building, and the removal of the upper portion of the building. A brick front is to be built and the whole building finished in plaster. When completed the building will form a distinct improvement to the vicinity.

MISS SAGESSER ANNOUNCES ENGAGEMENT TO V. C. TUCHSEN

Miss Alice Hazel Saggesser, daughter of Mr. and Mrs. J. Saggesser, of the Homestead district, San Mateo, announced her engagement this week to Valentine C. Tuchen of this city.

Miss Saggesser, who for some time past has held a responsible position in the local office of the P. G. & E. is well known locally and is prominent in fraternal circles.

She is the president of the Fraternal Aid and is a member of Bonita Parlor N. D. G. W. and Olive Branch Rebekah lodge.

Tuchen is the son of Mr. and Mrs. H. C. Tuchen of Arch street, and is an engineer. Miss Saggesser is a sister of Mrs. David Stott and Mrs. Hamilton Day of this city.

SCOTS PICNIC AT SEARSVILLE LAKE

About 200 Scots and families were in attendance at the Scots picnic held at Searsville lake last Sunday. A committee furnished coffee and each family brought their own lunch. In the afternoon a number of athletic events were on the program and prizes awarded to the winners.

The high dive was won by Mrs. George McKecher. Mrs. Flint won the swimming race. Arthur Pennemann won the men's swimming race.

Will Benedetti won the girls' foot race. Isola Latta won the first foot race. Mrs. Helen Walker won the women's foot race. "Irish Fred" won the boys' foot race. Fred Davis won another boy's race. Will Cohen was another winner.

Scots from all over the county took part.

MYSTERY BURIALS AS LOCAL MAN RETURNS

The mystery which surrounded the disappearance of Roy Meyers of Jackson street was cleared up this week when Meyers returned from Sunnyvale where he has been visiting.

Meyers who lived alone in a small house on Jackson street, left his automobile standing in the street last week and disappeared from his home. Neighbors who had been in the belief that the man had met with foul play.

Police Chief C. L. Collins forced a rear door of the home, and found the place empty.

WHAT THIS WEEK'S ADVERTISING OFFERS YOU

There are in this issue of the Times-Gazette announcements of unusually attractive offerings by reliable dealers. It will pay you to read the advertising columns with special care and to take advantage THIS WEEK of the offerings which meet your need.

REDWOOD CITY RESIDENT DIES AT HOSPITAL

Death overtook Gustave A. Johnson yesterday morning at the Community hospital, where he was taken a few days ago suffering from severe internal disorders. Johnson was a native of Sweden, and 55 years of age. For the past 30 years he had been a resident of Redwood City and during 20 years of that time had been an employee of the Frank tannery here. The deceased was well known and liked in Redwood City, and belonged to Bay View Lodge I. O. O. F. for many years. He is unmarried.

The body is now at the parlors of the Laying and Tinney Company here. No arrangements have been made so far for the funeral.

LA HONDA ROAD COUNTY'S GREATEST ASSET

Repairs on the La Honda road were finished yesterday after weeks of hard work. The thoroughfare is used by all fifteen in the county and is the scenic beauty of the landscape in traveling over the road. A tourist from Europe who recently passed over it declared the road to be unequalled in all Europe. Not even the famed thoroughfares of Switzerland could equal it for its panoramic beauty and scenic grandeur.

The road has cost the district considerable money for its upkeep but it is worth it for the splendid advertising that is derived from it. The road is the county's greatest asset.

BULLETS HALT LIMITED TRAIN AT REDWOOD CITY

There was a sharp report and a bullet spat from the solid steel of one of the great locomotives which was approaching the station at Redwood City on Thursday morning. Breaks screamed and the train came to a sudden stop a few hundred yards from the station.

Investigation disclosed the brass shell of a rifle cartridge on the track and the bullet was found flattened near the track. Small boys, it is said, have been amusing themselves by placing rifle bullets on the track and stopping the trains. Fortunately the bullet did not go off in the direction of the crowd of people, who were waiting for the train. The authorities are trying to locate the culprit and will make it warm for them when they do.

CONGRESSMAN FREE VISITS REDWOOD TALKS POLITICS

Arthur M. Free, incumbent congressman from this district, who returned from Washington last Monday and is now at his home in San Jose, was a visitor in town Wednesday looking over the political situation. Although Free expressed himself as confident of re-election, it is said that considerable opposition is being organized against him and that his election will be hotly contested.

Free, while in congress, opposed the educational bill which was considered last year.

REGISTRATION OF VOTERS TO CLOSE JULY 26th

Voters who have not yet registered, and who wish to vote at the August primary election must at the registration of voters will close at that time. Registration books are now open at the office of the county clerk. So far no estimate can be given by the deputies as to number who have registered, it is understood, however, that registration is under the normal.

BURLINGAME CLUB CONSIDERS TUNNEL THROUGH MOUNTAIN

The project of tunneling the San Mateo mountains between Burlingame and Halfmoon Bay, thus connecting the two sides of the county with a sea level highway, has been receiving the earnest consideration of the Burlingame Exchange Club. The tunnel, it is estimated, would cost \$1,651,000.

FAMOUS COLORED JAZZISTS TO PLAY HERE SAT. JULY 20

Ladd's Black Aces, the organization that has filled hundreds of phonograph records with the tunes that tickle the feet of a nation, and which has furnished music for the famous Ziegfeld Follies in New York, will play at the grand ball to be given in Redwood City at the Foresters' hall Saturday evening, July 26. The musicians are 9 colored artists, every one a master of his instrument with Johnny Dunn, jazz cornetist. Dance and hear these phonograph kings in person play their own compositions. Dancing starts promptly at 8 o'clock.

Mr. and Mrs. Lawrence Heiner and family returned this week from a camping trip near Lake Tahoe, where they have been for the past few weeks. They were accompanied on the way by Mr. and Mrs. Fred Childers and family and Mr. and Mrs. Lester Mullen, who returned earlier.

ALL CANDIDATES NAMES ON FILE WITH COUNTY CLERK

Forty-Four Aspirants for Office File
Papers in this County Prior to
Closing Date on July 17th

A total of 44 names were filed for nomination in the office of County Clerk Elizabeth M. Knoese before the closing date for nominations last Thursday. The nominations include all of the county committees, three supervisorial districts, as well as the district courts and the state assembly and senate. The names on nomination are as follows:

Supervisors
Third Township: Edward Dearborn, Harry Walsh, John MacBain.
Fourth Township: Manuel Francis, Charles Cavalli.
First Township: Thomas L. Hickory, J. J. Fahey.

Chief Justice Supreme Court (Short Term)
Louis J. Meyers.
Associate Justice Supreme Court (Short Term)
John W. Schenk.

Member Assembly 42nd District
Chester A. Jones, Frank L. Eward, Associate Justice District Court of

Appeals (Short Term)
Benjamin K. Knight.
Associate Justice District Court of Appeals (Term ending Jan. 3, 1927)
A. F. St. Sure.
Associate Justice District Court of Appeals (Full Term)
George A. Sturdevant.

Representative in Congress 8th District
Arthur Miller Clark.
State Senator 11th District
Fletcher Cutler, N. B. Johnson.
Republican County Committee
H. E. Griffith, John MacBain, P. E. Chamberlain, Elizabeth M. Knoese, E. H. Werder, James G. Mason, David R. Campbell, H. H. Smith, Julius Zewen, Francis T. Rapp, Horace Amplett, J. E. McCurdy, Catherine A. Bain, J. Lindgren.

Democratic County Committee
Frank P. Roach, C. Stilleon, J. V. Swift, C. L. Dimmitt, Albert Mansfield, J. F. Ford, James J. Jennings, Henry Baker, Paul Perussina, John H. Blanchard, Joe Quilman, Daniel McSweny, Edward J. Ringue.

JUST BUZZIN' AROUND

City Briefs

The Ladies Aid of the Methodist church will hold a food sale today from 1 a. m. to 5 p. m. at the Palace Market.

Mr. and Mrs. Lee Pipkin and their daughter, Lillian, returned this week from Yosemite Valley, where they have been staying for the last two weeks.

Miss Margaret Rice returned from her vacation this week. Miss Rice was in the Yosemite Valley.

Rev. and Mrs. R. J. Currie returned from Pacific Grove this week. While in the ocean city, Rev. Currie preached in the pulpit of Dr. Sisco, who occupied the pulpit here for Rev. Currie last Sunday.

Mr. and Mrs. Elmer Hanson and son Lloyd of Yerington, Nevada, have been visiting with Mr. and Mrs. Donald Warren at their home at 115 Birch street. The Nevada people are much pleased with California, and its climate, and as good boosters that they are, they say they have never seen surpassed.

Miss Louise Bettin, a former resident of Redwood City visited with Miss Eva Locker this week. Friday the young ladies joined the former's brother in a trip to Pacific Grove, where they will be joined by their sister, Miss Alice Bettin who will return with them.

Miss Eugenie Dickey, deputy in the office of the county assessor, and Miss Norma Johnson, deputy in the office of the county engineer, returned Monday from a two weeks' trip in the Yosemite Valley. Both young ladies report having had a sin.

GOOD PRICE OFFERED FOR LOCAL REALTY
It was reported yesterday that the owners of the Germania Hall property on Broadway were offered \$500 per cent foot for their holdings. The adjoining property was recently sold by them for half that amount.

At the meeting of the American Legion last Monday evening four local men were appointed to attend the convention of the American Legion to be held in Santa Cruz from August 4 to 7. Those appointed to uphold Redwood City Post are Roy Min-

KIWANIS HEAR LECTURE ON POWER DEVELOPMENT

F. R. George, division engineer of the Pacific Gas and Electric Company was the principal speaker at the regular Tuesday luncheon of the local Kiwanis Club. The speaker outlined briefly the needs of co-operation between the various power companies, especially in such times as the present when water power is low and the need for power for irrigation is at the maximum. The difficulties met with in water power development were also told by the speaker who accompanied his remarks with a series of interesting slides.

Miss Mildred Jackson, editor of the Happyland section of the San Francisco Bulletin, and Mr. Howell, director of the Happyland camp in the hills near here, were present and both expressed their gratitude for the help the club had given them in their work with the poor children of San Francisco.

City Engineer Charles Dimmitt was the chairman of the meeting.

MENLO PARK WORKERS ARE INJURED IN CRASH

A fractured skull, concussion of the brain, possible internal injuries and severe cuts and bruises were received by George Johnston, Menlo Park, when his machine collided with a car driven by J. Hoffman of Middlefield road and Hamilton street, Palo Alto. E. A. Johnson, Menlo Park, a passenger in Johnston's machine, received a fractured collar bone, possible internal injuries and cuts and bruises. Both men are electricians. Hoffman was uninjured. Johnston is in a critical condition at the Palo Alto hospital and may die. No arrests were made.

JUDGE LUCAS PRESIDES IN LOCAL COURT; JUDGE BUCK VACATIONING AT SPRINGS

Superior Judge H. C. Lucas of Santa Cruz county called the court calendar in the Superior court here last Thursday in the absence of Judge George H. Buck, who is spending his vacation at Bartlett Springs.

THE TEN-MILLIONTH FORD IS NOW NEAR CALIFORNIA

Traversing the great stretches of the western part of the country, through Nebraska, Wyoming and Utah, and maintaining its schedule with characteristic Ford performance, the car which is telling the interesting story of the production of Ten Million transportation units by the Ford Motor Company, is moving steadily toward the Pacific Coast, with enthusiastic and picturesque welcomes at every point along the route.

Parades and receptions are the order upon arrival of the car at the various stop-over places.

Ford dealers at Omaha, Neb., arranged one of the finest automobile parades in years. Decorated floats, bands and city officials in cars, made up the line of march.

Cheyenne, Wyo., held up the Ford honors of the state with a huge turn-out, and Salt Lake City, Utah, featured a number of "Old Timers" of early vintage behind the Ten Millionth car showed in contrast the progress of the modern automobile industry.

The Ten Millionth car is rapidly approaching the California state line and preparations are under way to make the reception and parade in the towns and cities off the Golden State, the largest and most interesting of any along the Lincoln Highway.

F. H. Sherman, head of the advertising department of the local branch is at present covering the itinerary of the Ten Millionth car, assisting the various dealers' committees in arranging a program for the arrival of the car in each locality.

ATTORNEY SWEIGERT WILL JOIN S. F. LAW FIRM

Assistant District Attorney William Sweigert who recently handed in his resignation to take effect on the 25th of this month, has announced that he will join the San Francisco law firm of Cullinan and Hickey. Sweigert has been assistant in the offices of District Attorney Swart for the past year and a half and in that time has made many friends in and out of the court-house who regret to hear of his intended departure.

TUCKERS TO LEAVE FOR SAN FRANCISCO SOON

Joe Tucker, who is at present conducting the Redwood City Furniture Exchange, will move with his wife to San Francisco next week. Tucker will turn his store here over to his father, who will continue in the business. In San Francisco Tucker expects to engage in the business of cleaning stone buildings.

FORMER SHERIFF TO WED

Announcements were received this week in Redwood City telling of the marriage of Mrs. Hattie Thorman of Wilts, Calif., and Robert Chatham, which is to take place today. Chatham is well known here as he was formerly sheriff of this county and before that was constable of this township. He made his home on Arguello street at that time. He is now engaged in the cattle business in Mendocino county.

LOCAL LEGION DELEGATES APPOINTED FOR MEET

At the meeting of the American Legion last Monday evening four local men were appointed to attend the convention of the American Legion to be held in Santa Cruz from August 4 to 7. Those appointed to uphold Redwood City Post are Roy Min-

Burglar Enters Home

Returning from the theatre last Sunday evening, Mrs. R. J. McGowan heard a noise in the kitchen of their home at 115 Birch street, and as she entered the door with her baby in her arms, the door was thrown violently shut by a burglar, who was hiding behind it. The door struck the baby in the head. The burglar made a dash for the bathroom window and disappeared in the darkness. The sheriff's office was immediately notified and a search made of the house to determine what had been taken.

Upon search being made it was found that a lady's beaded dress had been stolen, and a man's suit of clothes and \$1.50 in silver which had been left on the dresser. No other items were found missing.

BOY CHARGED WITH THEFT IN JUVENILE HOME HERE

Arrested at Fresno with a car which it is alleged he stole from Daly City, Harold Lloyd of Santa Cruz was taken to the juvenile home here this week by Constable A. S. Landini of Colma. The boy was arrested by a traffic officer of Fresno for having last year's license plates on the car. He is said to have replaced the original plates with those in order to avoid detection. Lloyd also admitted having stolen a set of carpenter tools valued at \$250, and hidden them in San Francisco. The tools were found where the boy said he had hidden them. The boy is said by his mother, Mrs. Hilma Lloyd of Santa Cruz, to have disappeared recently from home.

Fire Threatens I. O. O. F. Hall

A fire, said to have started from a cigarette thrown into the property room of the Odd Fellows hall, nearly resulted in the destruction of the building, if not in more serious losses last Sunday morning. The flames were discovered by Police Officer McAlliff and the department summoned. The blaze was soon under control and the damage was limited to a few minutes more of the fire, however, would have endangered the whole of Main street's business section.

WELL-KNOWN SAN MATEO MAN AND BELMONT GIRL MARRIED

News was received here this week of the elopement last Saturday of Clarence Beals of San Mateo, and Miss Hazel Turner of Belmont. The wedding is said to have taken place in the Episcopal church of San Rafael. After the ceremony the young couple left for a honeymoon at Lake Tahoe, where they are now stopping. Both are well known locally. Beals is a nephew of Mrs. Ed. Hansen of this city.

SCHOOL BUILDING MOVED

The building in the rear of the Central grammar school, and formerly used by the school as a manual training building is being moved this week to a location on the other side of the school grounds. When in its new position the building will be renovated and made into a suitable housing for the kindergarten, which will then be moved from its present location in the little old school house on the creek. The moving of the building was found necessary in order to connect with the sewer. It was found more economical to move the building closer to the sewer on Hamilton street, than to run the sewer across the school yard.

It is estimated that if all the hail that has been bobbed were laid end to end, it wouldn't prevent a single woman from bobbing her hair.

The radio can never compete with the pay line until you can talk back over it.

DUMBARTON SPAN TO BE STARTED SOON

*According to rumors current in San Francisco this week, work is soon to be started on the actual construction of the Dumbarton bridge, which will, it is said, span the bay within the next two years. Money is now available, according to the reports, with which to build the great span, and work will be rushed to completion. It was said that this work was to have been started by the fifteenth of this month. This has not been done, however. Why the initial operations have been delayed has not been announced. That definite action will be taken within the immediate future, however, is assured.

The bridge delay in the building of the bridge since its first inception several years ago is explained by the fact that money interests had to be interested in financing the project. Now that this phase of the work is over, as the reports state, the remainder of the preliminary work should not occupy much time.

That the bridge proposed to be built to the north of the Dumbarton bridge at Coyote Point will also be built immediately, is contained in reports from San Mateo. Considerable interest is being evinced as to which of the two bridges will be started first.

MARGUERITE MULLER WEDS PALO ALTO MAN

Miss Marguerite Muller, younger daughter of Mr. and Mrs. Carl Muller of this city was married to Walter L. Brown of Palo Alto Wednesday forenoon. Rev. Father C. E. Kennedy officiated at the ceremony, which was at the Mt. Carmel Catholic church. The bride was attended by her sister, Mrs. Willard Colburn of San Diego. James Brophy of Palo Alto was best man. Following the ceremony here the young couple left on a honeymoon, from which they will return to their home, which Mr. Brown has secured in Palo Alto.

Mrs. Brown is well known in Redwood City, where she and attended and graduated from both the grammar and the high school. She is a talented young woman, and is well liked by all who know her. She has the best of wishes of the community for her happiness.

NOTARY ON STAND IN FALLON WILL CONTEST

Mrs. L. H. Condon, notary public of San Francisco, who drew up the last will and testament of Carmel Fallon of this county, now under contest, and also certain deeds in August of last year conveying property valued at \$500,000 to a daughter, Mrs. Annie Fallon Malone, occupied the witness stand in the contest hearing before Judge Thomas F. Graham throughout the entire day Thursday. The hearing which has been going on for several months before a jury, is expected to last another two weeks.

MAIN STREET PROPERTY SOLD TO BURLINGAME AUTO FIRM

Announcement was made this week of the sale by E. Ted Thompson of his property on the corner of Main and Maple streets to Dessin Bros., Dodge agents of San Mateo. The property includes the store at present occupied by Ghereni's grocery store, which is soon to move into its new location on Main street. The property will be remodeled into an up-to-date sales room by the new owners and will be supplemented by shops for the repair and storage of cars. This property and the adjoining property, which was recently purchased by Earl Rush on which he expects to erect an extensive garage, may eventually form the nucleus for the auto industry of Redwood City.

Why does a pedestrian cross the road? Just to annoy the motorists!

LIGHTS AGAIN

ONCE more we hear talk of a general war by the traffic squad upon the autoists whose lights are too glaring. We are glad to hear of it. Glaring lights are a danger and a menace to the motoring public. Blinded by the glare of the lights ahead, many motorists have either wrecked their cars or struck some pedestrian whom they could not see. But why these spasmodic drives? We remember several of them, and between the drives the lights seem to glare as badly as ever. The laws are always there and should, we believe, always be enforced. It would be better to let motorists know that he could be taken at any time for bad lights, than to create a big stir for a few months and then let it die out until the next year.

KEEPING THE HIGHWAY CLEAN

WE do not know who is responsible for the disposal of the asphalt taken from the highway when it is repaired, whether the state, the town or the individual property owners. But we have noticed that piles of this rubbish have been accumulating along the highway from one end of the city to the other. Whenever a repair is made to the road, all of the material taken out is heaped along by the side of the road, and there it stays. This lends an untidy air to the whole highway and gives a poor impression of the town to the tourists who are just passing through and sees nothing but the highway. We have often agitated in this column for the improvement of the sides of the highway by the planting of shrubs and flowers. Now we again wish to suggest that the sides of the highway may be beautified. The removal of these heaps of rubbish will help.

INTERDEPENDENCE—CO-OPERATION

TWO principles hold true in all commercial transactions, and will always be found true as long as men live by selling goods one to the other. These are the dependence of the consumer upon the merchant for all of the necessities and luxuries which are not granted free by Providence; and the dependence of the merchant upon his consumers for his living and the power in turn to purchase the things which he desires. In order that there may be any commerce between one man and another, one must know what the other has before he purchases. This making known then, is the function of an advertisement. Advertising in some form is absolutely necessary to business. Then if advertising is necessary to all business, we may infer that the more highly developed that advertising is, the more careful thought is bestowed upon it, the more returns will be received from it. This fact stands the test of practice. The very existence of highly paid and efficient advertising departments in all big business houses proves this statement.

As we have said, merchant and consumer are mutually dependent and wholly dependant upon each other. But this dependence, unlike the usual idea of dependence does not imply subjection. Rather on the contrary it is, or should be, an active co-operation through advertising. Consumers working for the good of the merchants, because they know that as the merchants prosper so they and the town will be benefited. And the merchant by fair dealing and low profits, such as are made possible with the large volume resulting from advertising, holding the confidence and good will of his customers.

A Utopia, you think? No, a feasible and workable practice. You can help in this mutual co-operation by buying advertised goods. It will save you money at the same time.

RADIO TO AID SEA CABLE WORK

MAJOR GENERAL GEO. O. SQUIER, former Chief Signal Officer of the United States Army, predicts that basic engineering principles of radio will soon be applied to ocean cable practice, with astonishing developments. One such experiment has already been made with marked progress.

"A universal automatic telegraph transmitter, applicable to radio, land lines and submarine cables, has been developed and tested over an artificial laboratory cable.

"There is no real social or economic conflict between ocean cable and radio telegraphy. The one is essentially a point-to-point two-way service between individuals; the other, at present at least, is essentially a broadcasting one-way service, depending upon mass appeal. Each has its own natural field of usefulness in the development of world traffic. The logic of events will eventually place each service in its proper sphere."

HAVE FAITH IN AMERICA

IN the June Harper's Magazine, David C. Houston has a constructive article which shows that this country is sound in spite of the workings of pessimists, agitators and demagogues.

Those whose comparisons are with the heroic days of George Washington are reminded that he was by some of his own day called a hypocrite, an impostor and a murderer. Those whose political demigods are the Clays, the Websters and the Calhouns are told that Cleveland, Wilson and Richard Olney were more worthy to be followed than these statesmen of the former days. And to those who do not look back at all, but only about them in bewilderment and disgust upon scandals, class conflicts and blocs. Mr. Houston brings the conclusion that no one class or "bloc" has sense enough to govern all the other classes, and that present "blocs" will disappear even as did the ones against which Washington warned the people.

There is, with a safeguarded economic stability,

a spirit in the people which will insist upon a clean national household from cellar to attic, and which prompts this financier whose roots are deep in the soil of America to advise the public that "the United States is today the safest investment in the world."

We have succeeded, the ex-secretary contends, despite all our mistakes and failures and official shortcomings, because we have had, on the whole, a "competent people." And he adds the corollary that the right kind of people can run any sort of government, while the wrong sort cannot run any kind.

One cannot read Mr. Houston's article without new hope for America, and even for Europe, unless a chronic and irreclaimable pessimist.

DATE OF ELECTION FOR INCORPORATION HAS BEEN CHANGED

The date set by the board of supervisors for the election to decide the incorporation of the City of Lawndale was changed by action taken by the board at their meeting last Monday from July 29 to August 1. The matter was brought before the board by Attorney Lee Ross of the firm of Ross and Ross, who represent the proponents of the incorporation of the cemetery district of the northern part of the county now known as Lawndale.

Ross asked that the former action of the supervisors calling for an election be rescinded. Upon a motion made by Supervisor MacBain, the action was rescinded. Ross then presented a new resolution calling an election and this was passed by the board.

This action was made necessary, Attorney Ross, explained, because in the judgment of District Attorney Swart it would not be legal to conduct an election in the territory described in the first petition, as there were not sufficient inhabitants. The new resolution includes "some land not included in the first one."

M. Jensen of Colma was called upon and gave testimony relative to the additional territory and the number of inhabitants it contained.

The place named for the polling place by the resolution is that of Catherine Wright on F. street, between San Bruno Avenue and Kelley street. The following officers were named: Inspector, Olga Orlobski; Judges, Stella Jensen and Catherine Wright; clerks, Edward Weisenburger and Joseph Lagomarsino.

SHRINERS ORGANIZE FIRE SQUAD TO PROTECT 1600-ACRE GROVE
The members of Islam Temple of the Shrine living on the peninsula have organized this week for the purpose of protecting their 1600-acre tract of redwood timber near La Honda from any chance of fire.

Fire Chief Mark Ryan of Redwood City has been appointed fire marshal of the grove by the potentate Ryan is also a state fire marshal. Yesterday Ryan made a thorough survey of conditions at the grove, with the purpose of locating fire menaces, and will recommend that all such menaces be removed. A meeting of the Shriners was held in San Francisco last night for the purpose of perfecting the organization of the firefighters and of planning fire prevention means for the park.

The members of the Shrine living in this county have volunteered their services in the case of need. The San Francisco Shriners will always be ready to help if the necessity should be too great to be handled by the local men.

"DEVIL'S BIBLE" THE LARGEST
The largest Bible in existence, and curiously known as the "Devil's Bible," is in the royal palace at Stockholm. It is a huge copy of the Scriptures, immensely valuable, and written on 300 prepared skins of asses. It is beautifully illustrated, the covers being of solid oak planks four inches thick, and the pages measure a yard in length.

A half-wit is better than noon.

GREAT FLOATING DOCK OPENED
A floating dock 960 feet over all and covering three and one-half acres, has been opened at Southampton, England, which will enable that port to compete with Boston and Hamburg in the repair of the largest Atlantic liners. It has a lifting power of 60,000 tons, or greater than the weight of any liner now afloat.

KING BORIS SELLS HIS FARM
A quarrel between the royal house of Bulgaria and the villagers of Meckhur, near the city of Plovdiv, has been settled after a quarter of a century, and King Boris has been bombarded with telegrams from the villagers thanking him for his generosity in settling the dispute.

Meckhur is an island in the Maritsa, close to the village of the same name. Ex-King Ferdinand, King Boris' father acquired it by purchase and used it first as a game preserve and later as a model farm. It is about a square mile in area. The villagers never acquiesced themselves to ownership of the island by the king. When Boris ascended the throne after the abdication of Ferdinand at the end of the World War they approached him with a proposal that he sell it to their commune.

The last phase of the negotiations was reached the other day when the king fixed the price on a purely nominal basis, and the deed was transferred to the mayor and village council.

It is understood that the villagers will maintain the island as a model farm.

COURTESY
"Courtesy gives its owner passport 'round the globe."
—JAMES T. FIELDS

WEBSTER defines courtesy as "Politeness combined with kindness." This institution has endeavored to make courtesy a part of its every transaction with the public—and also to add to courtesy, patience, tolerance, consideration and genuine warm human helpfulness.

NOVEL WINDSHIELD EMBLEM PROVIDES HANDY ROAD MAP
A map of the Redwood Highway in miniature is furnished on the reverse of a windshield emblem for motorists just issued by the Save the Redwoods League. The gummied side of this emblem consists of a striking design showing a giant redwood on the slogan "Save the Redwoods on the Redwood Highway." On the side which faces the map of the automobile is printed a map showing the distances from point to point on the Redwood Highway. Already there has been great demand for these maps on the part of the numerous tourists who because of the interest in the Redwoods are touring this wonderful route. It is reported that the Redwood Highway was never in better condition, particularly between Sausalito and Eureka, and because of the perpetual green in the Redwood forests motorists are taking particular delight in this trip at a time when much of California is very dry, due to lack of rain.

OLD TOMBS OF CHINESE KINGS
Chinese royal tombs said to be older than the tomb of Tutankhamen, have been found at Urga, Mongolia, by Prof. Peter Kozloff, Russia's foremost archeological explorer. From the summit of a hill Professor Kozloff and his assistants, dug to a depth of 50 feet, where they unearthed imposing wooden structures containing sarcophagi of Chinese kings who ruled China more than 4,000 years ago, before Europe was heard of.

The subterranean tunnels connecting the mortuary chambers of the former rulers and the tombs are of distinctive craftsmanship indicating a high state of culture in prehistoric times. The walls are embellished in embroidered silks and satins and bear hieroglyphic inscriptions illustrating the lives and achievements of the rulers.

As in the tomb of Tutankhamen, there was much furniture and many miniature figures representing men, animals and birds, in deference to the Chinese religious respects for these figures.

Professor Kozloff decided not to disturb the bodies of the kings. He is reorganizing this exhibition for the dash into Tibet, where he will resume his excavations in the forgotten city of Kharrakota, which he unearthed several years ago.

ITALY'S TOBACCO MONOPOLY
While Italy is not always thought of generally as a tobacco growing country, a considerable income is derived therefrom by the Italian government, tobacco being a state monopoly there. Official figures show that during the past season tobacco plantations occupied 30,475.93 hectares of ground (one hectare is equal to 3.47 acres). Tobacco leaves packed in bundles amounted to 25,259,000 kilograms (one kg. equaling 2.20 lbs.). The total amount of tobacco exported from Italy was 874,121 kg., with a corresponding value of 16,335,445 lire. Tobacco imports, according to the government figures, do not amount to 5,000,000 lire in value, leaving a balance of over 12,000,000 in Italy's favor.

CORSET STEELS FROM BAYONETS
"Pouter Pigeon" styles are fashionable in Germany this summer, the breast line being accentuated and hips taboored by the modistes. Tight lacing is being practiced in efforts to conform to the fashions which have been imported from the Riviera and Paris by Germans who have traveled extensively this year for the first time since the war. The German corset factories which make munitions during the hostilities, now have gone back to their former business, but are obliged to make low cut corsets, as the women decline to return to their former full length armor. Even the stoutest women have adopted the short corsets, some with weird results.

WHAT YOU GAIN BY READING ADVERTISEMENTS

When a merchant has a chance to buy something good at an especially low price he is likely to order a large quantity. That means that if he sells all he has, he can afford to sell it at a low price.

But if he does not advertise the fact that he has these goods for sale at the reduced price, no one will know of it. So he advertises and looks for his gain in large sales. YOU profit by reading of such bargains and by taking advantage of them.

Not so many steps

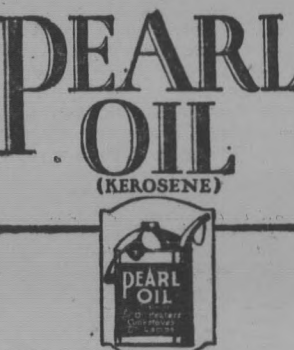

—no coal or wood to lug
—one filling lasts for days

—Steps! how many of them Pearl Oil and a good oil cook-stove save you! Those needless steps for heavy coal, for wood and the ashes.

One gallon of economical Pearl Oil often lasts for days, and it is so much handier and quicker.

Pearl Oil's intense flame is concentrated heat—and it is odorless and clean-burning too! The Standard Oil Company refines and refines it for best results. Avoid disappointment—ask for Pearl Oil by name.

STANDARD OIL COMPANY (California)

Water Case To Be Heard Next Thursday

The rights of the residents of the Atherton district to their water supply will be tried before Superior Judge Hudson of San Benito county, sitting in the court of Judge Buck next Thursday. The case of M. A. Harris vs. Joe Shearer which will be heard at that time involves the water rights of practically all residents of Atherton, and is attracting wide interest from the far reaching results that may issue from the decision.

According to the plaintiff the water supply of the Atherton district is being so seriously depleted each year by the heavy pumping of water by the defendant who uses it for irrigating large tracts of tomatoes, that the household supply of the district is endangered. This year, according to Harris the shortage approaches a water famine.

Judge Buck, judge of the court here, was disqualified from sitting in the case as he has extensive holdings of land in that district. Judge Hudson was appointed by Governor Richardson to hear the case.

The most important man in town doesn't know it—and probably nobody else does.

Probably nobody ever was a loser, at heart, but one who loses, at heart, is a loser. There never was a goose that was a golden egg, and besides she's dead. One of the world's saddest sights is a bright man's dull finish.

NOTICE TO BIDDERS
Bids will be received for the interior painting of the 8th Cal. School. For particulars see Mr. A. Denney, Clerk, Chestnut and Cedar streets, San Carlos.

F. J. ODGERS, Chairman Board of Trustees. First publication in Times-Gazette July 19, 1924; last publication July 26, 1924.

SHOWING AT THE

SEQUOIA THEATRE MONDAY and TUESDAY, July 21 and 22

"You Wouldn't Understand"

said the erstwhile village girl whom Fate has turned into a woman of Paris when the richest bachelor in the world's gayest city pointed to her glittering gems, asking, "What more do you want? You have everything."

She Had Butterfly Luxury

but all the while her woman's heart craved real love with the man of whom Fate had robbed her, a real home, her man's children. For these she was willing to give all—her gorgeous gowns and gleaming jewels.

CALIFORNIA WEEKLY INDUSTRIAL REVIEW

European demands for silver and gold for currency basis sending capital into western mines; private and public building programs cover contracts for months to come; great demand for labor in grain and hay harvest.

Los Angeles—\$100,000 skating rink to be built.

Del Norte—Rock crushing plant opened for maintenance of present road work.

Corcoran—Cotton gin to be erected at cost of \$20,000.

Compton—Union Oil Company brings in Hellman No. 5, making 1500 barrels.

Roseville—Theatre, with seating capacity of 1200, to be erected.

Oakdale—Pacific Pea Packing Company to open cannery July 15.

Sebastopol—Paving being laid on new Russian river highway north of city.

Melbert—Apricots being shipped from this city at rate of 2 carloads per day.

El Centro—Great Western Power Company spending approximately \$1,000,000 on local improvements.

Compton—Two new industries to be established here in near future.

Loomis—Proposed school building to cost approximately \$76,000.

Orville—Pacific Gas and Electric Company completing construction of 200,000-gal. high line reservoir east of city.

Richmond—Bethlehem Shipbuilding Corporation lays keels for 3 ferry boats being constructed for Richmond-San Francisco Transportation Company.

Crescent City—Contract let at \$391,740 for erection of bridge across Klamath river.

Bakersfield—Over 50,000 acres leased for oil purposes in San Joaquin valley since first of the year.

Anaheim—\$35,000 bond issued for completion of sewer system.

Orange—New traffic artery West Chapman and La Veta, below Main street, to be opened.

San Jose—Notre Dame academy to be remodeled, new buildings erected, and converted into day school for girls.

Oakland—Pacific Malleable Casting Company, new industry recently established, opens largest plant of its kind west of Mississippi.

Lankershim—Site selected for construction of community hotel.

San Dimas—Pacific Textiles, Inc., making definite plans for construction of huge plant.

San Francisco—Bank clearings for first six months of current year show increase of \$110,739,000 over corresponding period in 1923.

Redlands—\$50,000 worth of oranges being shipped out of city daily.

Roseville—Orangevale Fruit Growers' Exchange opens new shipping house.

Tracy—Banta-Cargona Irrigation district votes \$705,000 bond issue for construction of adequate irrigation system.

Redding—Pacific Gas and Electric Company to spend \$165,000 for erection of employee houses at Pitt No. 2 power plant.

Hanford—Building permits totaling \$121,325 issued during first six months of year.

Stockton—Plans under way for construction of all-year highway from Oakland via Stockton into Yosemite Valley; estimated cost \$697,600.

Crescent City—Additional \$90,000 will soon be available for jetty work here.

Lankershim—Prospects bright for establishment of automobile transmission factory.

Berkeley—Three streets ordered paved in northern section of city.

San Jose—Pacific Gas and Electric Company to spend \$95,000 enlarging and improving local substation.

Palmdale—Six carloads of asphalt and fuel oil received for work on boulevard from Palmdale Inn to Litterock.

Compton—Shell and Union Oil Companies to bring 700 additional

THREE MUSKETEERS MADE ON WORLD'S BIGGEST STAGE

On the biggest motion picture stage ever constructed, Douglas Fairbanks made his celluloid version of Dumas' immortal story, "The Three Musketeers," prepared for the screen by Edward Knoblock and directed by Fred Niblo who also directed Mr. Fairbanks in "The Mark of Zorro."

The first shots taken were of the Queen's boudoir, the set for which is the largest motion picture stage ever built, and which is located in Hollywood, Calif.

All of the feminine players, gorgeously costumed, appeared in these first scenes. They include Mary MacLaren in the part of Queen Anne of Austria; Marguerite De La Motte, as Constance; Barbara La Marr, characterizing Milady, and all of the ladies in waiting.

The Queen's room is as near the exact reproduction of the famed boudoir as it was humanly possible to make it. Every proportion and detail is historically correct even to the paneling of the walls which was all hand painted with exactly the same pictures that ancient book-cuts indicate graced the walls of this noted chamber.

Both the Branton studio and the Fairbanks' studio were used in filming this remarkable tale. Between seventy-five and one hundred sets were used in the entire picture, all of them exact counterparts of the original rooms and buildings they represent.

For action, "The Three Musketeers" excels anything Fairbanks has ever done. There are sixteen duels fought, in one of which Fairbanks as D'Artagnan, and the three musketeers engage eight rivals. This

TWENTY-FIVE YEARS AGO

From the Times-Gazette of July 15, 1899.

T. C. Rice, who has the contract to lay the foundation for the new bank building began work Thursday. The contract for the stone work has not yet been awarded.

At a meeting of the trustees of the Sequoia Union High School held Wednesday afternoon F. S. Rossiter was chosen principal to succeed Professor Curry, who is taking a post-graduate course at Stanford and cannot devote all his time to the school. He has been retained to teach the Latin classes in the forenoon. Miss Bristol and Professor Pierson were also appointed for all-day service. Mr. Rossiter will retain his position as principal of the grammar school. He is a great worker and will maintain the standards of both schools.

The curriculum has been lengthened to four years so that the school might be accredited to the University of California.

Johnny Poole has left Dawson City and is expected here on the next steamer. He will probably be the only person from this county who will come out this season.

WHAT ADVERTISING DOES FOR YOU

If a dealer can be sure that the advertising of his wares and their prices will be intelligently read by large numbers of people, he can afford to sell at lower profits, because his expenses are less per article sold.

Store expense remains practically the same, whether he sells a little goods or a great deal. The cost of advertising is trifling compared with the increased number of sales resulting from it.

That is why progressive dealers advertise. It saves you money to respond to their advertisements.

SEEKS DIVORCE; CHARGES OF CRUELTY MADE HERE

In a suit filed in the Superior court here by Mrs. Elvira Blondini, Paolo Blondini is charged with extreme cruelty. Mrs. Blondini charges that her husband beat her and her four-year-old son; that he forced her to work for a living and then took her earnings from her. Blondini is charged by his wife with having kicked her out of bed and having cursed her.

In her suit Mrs. Blondini asks for a divorce and for the custody of the child. She also asks that a restraining order be granted to prevent Blondini from disposing of community property or withdrawing money from the bank until the court shall have adjudged the ownership of the property.

The Blondinis are residents of South San Francisco.

INVITATIONS RECEIVED FOR VISITORS DAY AT CAMP

Invitations were received here this week for "visitors' day" being held today at the Del Monte citizens' military training camp. The program for the day includes events tending to illustrate the work of the camp in training young men for good citizenship and for leadership in military units. The camp now has 1200 young men in training. Visitors are at all times welcome at the camp. Today, however, special events are planned and the camp will be thrown open for inspection. Guides will be furnished to show visitors all the points of interest.

ADD TO THE JOY of your camp or picnic with the convenience afforded by one of the Hawkeye Basket Refrigerators. Compact and handy, they solve the problem of quick packing and safe transportation.

ROY W. CLOUD WRITES INTERESTING DESCRIPTION OF NEW YORK VISIT

Our County Superintendent of Schools Visits Many Historic Places Writes About Some

New York, July 8, 1924. Thought you would like a continuation of my impressions, so here goes:

Friday, July 4th, after the President's address, six of us took the trip to Gettysburg. The day was perfect for such an outing. Our way took us past the home of General Pershing, through Cherry Chase and out through some of the most beautiful sections of Maryland. We landed at Frederick and saw the place where Barbara Fretwell waved her flag and caused the blush of shame to cover Stonewall Jackson's face. The early part of the afternoon was spent in the Shenandoah valley and we could picture the gloom and weary Confederate host that marched back into Dixie just seventy-one years before, after one of the worst defeats they had encountered.

At three we crossed the Mason and Dixon line and were in Pennsylvania. At Gettysburg, a group took us over the field of battle. We began at Lee's headquarters then went from point to point. Little Roundtop, Roundtop, Cemetery Ridge, then to the scene of Pickett's charge, where so many of our country's boys, both north and south, gave their lives. Our longest stop was at the point near Cemetery Ridge, where President Lincoln delivered his memorable address seventy years ago. The feelings that came to us as we stood there were so strong with historic significance cannot be written. Some in the place where history had been made.

The next day we were in Philadelphia. I had the great pleasure of going out into the country, sixty miles, where I visited the house in which my father was born. The country was beautiful and the house and its surroundings were just about the same as they were when my grandfather took his young wife there in 1817.

Sunday we spent the day at Valley Forge. We saw the headquarters and the stations of the different companies of the Continental troops and we thought back to the hardships that our fathers had endured in order that we might have the best country in the world. Our trip of the day before took us through the fields of Brandywine, later in the day we were in Trenton and so saw much that was of particular interest.

Monday we attended the Democratic National Convention, and during the 78th, 79th and 80th ballots and heard all of the debates and resolutions attendant thereto. It was intensely interesting and the excitement was keen. Everyone thought the adjournment from Friday would result in a compromise candidate, but the adherents of McAdoo and Smith held firm and nothing was done. At this present writing, Tuesday evening, the convention is in sight. Our old friend, William Jennings Bryan was in evidence everywhere and the ready mallet of Chairman Thos. J. Walsh of Montana was not big enough nor wielded vigorously enough to bring much order.

At five o'clock we went out to White Plains to visit some friends. After dinner we took a ride through some wonderfully beautiful country. We went out the old Boston Post Road to Rye Beach on Long Island sound, then back through the Westchester country and drove through the estates of Mrs. Whitelaw Reid and D. O. Mills. We visited the big lakes that supply New York and saw

the aerating system that purifies the water before it is sent to the consumer. Today we took in the city and saw so much that I cannot remember much of it.

Tomorrow we go to Boston. From there I will write again.

Yours,

R.W.C.

ENGINEERS PLANNING TO MEET NEW MOTORING DEMANDS

Fifteen million motor car owners eagerly await a general adoption or rejection of balloon tires and four-wheel brakes so that the decks may be cleared for the next big features in motorism, according to Motor Land, the Pacific Coast magazine of motoring.

Thousands of motorists have already accepted many of the newer innovations and have come to regard them as conventionalities. Motor Land says. They are awaiting news of new and bigger improvements in cars. The question, however, in the minds of most motorists is not "What are the coming improvements?" but "What can they be?" It seems as though the automobiles were about as near perfect as possible. It does everything a little better than necessary. Price appears to be no obstacle. It is so beautiful in design that many people think it is too good looking for the practical uses to which it is put. What, then, can there be in the way of something new for the automobile?

As one authority says, the public cannot guess what is coming because it is merely looking for something new. The engineer knows what's coming because he knows what the automobile still lacks.

Also the engineer knows that with the changes in car use, traffic conditions and the addition of the various improvements themselves, new demands are made of the automobile. These demands must be met with new engineering features.

CALIFORNIA LEADS IN PASSENGER CAR REGISTRATION

California leads the world in passenger car registration according to figures published in the current issue of Motor Land, the Pacific Coast magazine of motoring. Last year California led New York state its closest competitor, by 56,389, with a registration of 1,056,756 passenger cars, as against New York's 1,000,367.

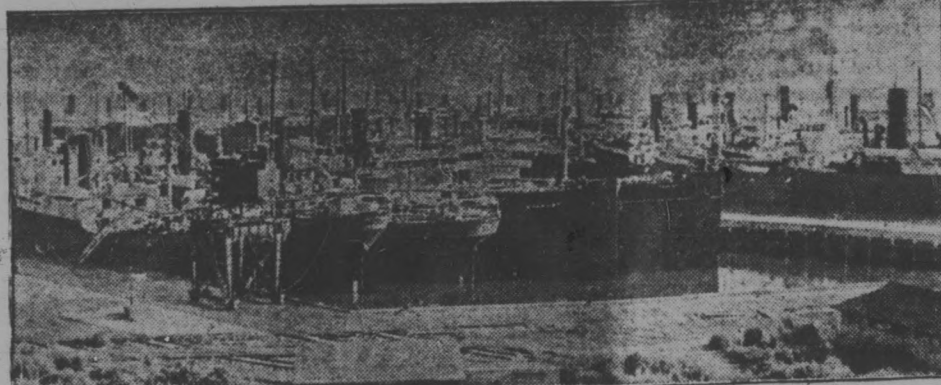

In the number of cars per capita, California's leadership is undisputed, the ratio being approximately 1 to every 3 persons, as against New York's 1 to 9 and a general average for the United States of 1 to 7.

California is rapidly approaching leadership in total registration latest figures from the Motor Vehicle department with six month's registrations yet to be recorded, showing 1,061,149 passenger cars, 124,602 pneumatic-tired commercial, 38,027 solid tired commercial, 10,296 motor cycles and 12,231 trailers, a total of 1,190,265 as against 1923's total of 1,100,283.

The shade of Darwin is probably having a good laugh over his famous theories getting into politics.

Europe is a continent where a trouble-maker and a peace-maker are the same thing.

Maybe if we did not talk so much about the unrest, we'd get rested.

TRULY AN ISLAND OF LOST SHIPS: HOG ISLAND VESSELS IN DECAY

Part of the one hundred and five ships which are rusting away at the Hog Island shipyard, Philadelphia, Pa. Their estimated aggregate cost is \$60,000,000. The island is a scene of "isolation and decay. The forest of derricks have been removed, shop buildings razed, and none but a skeleton force betoken life in the area.

"A WOMAN OF PARIS" GREAT STAR'S INITIAL SERIOUS PRODUCTION

"A Woman of Paris," the first Charles Chaplin serious production for United Artists Corporation, will be the attraction at the Sequoia Theatre on Monday and Tuesday, July 21 and 22.

This important announcement is made by Manager O'Brien; who is the attraction at the Sequoia Theatre on Monday and Tuesday, July 21 and 22. This important announcement is made by Manager O'Brien; who is the attraction at the Sequoia Theatre on Monday and Tuesday, July 21 and 22.

Almost an entire year was consumed in the making of "A Woman of Paris" and while there are no huge sets, no mob scenes, no elaborate mechanical effects, the story unfolds an exquisite tapestry, woven around a woman's soul naked in its sincerity though clothed in its individuality.

Edna Purviance, who has been identified with Chaplin in almost all of his comedy productions, rises to great heights in her career as the star of "A Woman of Paris." Under the careful direction of Mr. Chaplin, Adolphe Menjou, well known screen actor, plays the leading male role, while other important members of the cast include Carl Miller, Lydia Knott, Harry Northrup, Malvina Polo, and others well known in the picture world.

NOT SUFFICIENT EVIDENCE TO CONVICT MEXICANS

Three Mexicans, Antonio Hernandez, Amadeo Abalos and Joseph Marquez who were held for the attempted murder of Dionisio Reyes at Fire Points on June 16, were dismissed in the court of Justice of the Peace Ray Griffin last Tuesday. Dismissal was made necessary by the fact that not enough evidence against the men could be secured by the prosecution for conviction.

BOOTLEGGER STARTS SERVING 30-DAY JAIL TERM HERE

Convicted of selling liquor, Richard Powers, who conducts a restaurant on the highway near Millbrae, started serving a thirty-day term in the jail here this week. Powers was arrested earlier in the week and was convicted by Federal Judge Kerrigan. Powers was sentenced to pay a fine of \$300 by the federal judge in addition to his jail term.

"CO WPRINTS" TO FOOL DRUGGISTS

This shoe, now a trophy in the prohibition unit at Washington, D. C., was worn by a distiller in the vicinity of Hillsboro, Fla. When the still was discovered no human footprints could be found but all around the still were bovine footprints. The frame is made of wire and on the bottom are what appear to be two hoofs. In reality they are blocks of wood cut to resemble the hoofs of a cow.

HORTICULTURAL COMMISSIONER FILES REPORT

To the Honorable Board of Supervisors, San Mateo County:

Ordinarily the attacks of insect pests are of minor importance during June but weather conditions have been very favorable to the increase of insects and, as a consequence, complaints of damage and inquiries for methods of control, have been much more numerous than usual. Grasshoppers are continuing their injury and are hard to control where any considerable areas of grass or pasture lands are adjacent to green vegetation of any kind, but good results are reported where the bran-paria green formula has been used as directed. Aphids on tomatoes has been quite plentiful, and has been causing some damage. It has been necessary to spray with blackleaf or dust with nico dust in a number of instances.

The shipping season for vegetables is about over except to points within the state so certificates on account of foot and mouth disease are not so greatly required. We have certified to 104 shipments during the month a great many of which were carloads of lettuce and peas but there were 28 cars of potatoes, and 2 cars of green horse beans. It is reported that in some places on the coast so many horse beans have been picked to ship green that there will be none to thresh. I have noted a few instances where the beans had been picked and the plants plowed under as a fertilizer, an excellent plan and one that might be followed more generally with profit.

But little nursery stock was received during the month, but 101 shipments of 7,278 plants and packages of which 70 shipments of 4,093 plants and trees were from California points. Most of these were shrubs and various ornamental plants for nurseries for fall trade. Several inquiries have been received as to the cause of the peculiar appearance of the madrone drone trees on the foothills. I have made an investigation and have had my observations checked by an expert in forest tree diseases, and we have found that while there is some disease and insect injury, notably some damage by a bark miner, these are of secondary importance and the primary cause of the trouble is lack of water or rather rain fall. It has been noted that the trouble is in evidence where the trees are apparently receiving plenty of water from a spring or irrigation, but it should be remembered that this is not the same as rain for it is not the same kind of water, it does not penetrate so deeply, and the tree does not receive a good washing which it does with a heavy rainstorm.

Respectfully submitted, A. W. TATE, JR., Horticultural Commissioner of San Mateo County.

REDWOOD CITY MAN ARRESTED IN SANTA BARBARA

According to reports from Santa Barbara, Julio Riparetti, who gave his address as Redwood City, was the first to be arrested under the provisions of a new ordinance which forbids the driving of automobiles while one arm of the driver fondly embraces the waist of his fair companion. Riparetti was arrested last Tuesday, and paid a fine of \$5.

NEWS OF MENLO PARK

Felton, Elkins and Mrs. Sarah Currier-Sickney Tevis were married in New York on June 24th, immediately sailing for Italy to spend the honeymoon. On their return to America they will reside at Santa Barbara. This marriage makes the third venture for each on the matrimonial sea and as there is luck in "three" this last voyage on the stormy billows will likely be successful as their barque finally finds a safe anchorage in some restful harbor in a smooth sea. Young Elkins inherited nearly \$5,000,000 from his grandparents. The late Senator Charles N. Felton was his grandfather. When the boy was about three years old the elder Felton was chosen United States Senator by the legislature of 1891. His friends in Menlo Park met the senator at the depot here on his return from Sacramento and with a brass band escorted him to his home. The first one to greet him as he stepped upon the porch was the little red-headed grandson, who is now known to fame by the number of his matrimonial adventures.

Mrs. Harry Bush is up from Los Angeles with her pretty young daughter on a visit with her parents, Mr. and Mrs. William Feeley. Mrs. Bush, formerly Miss Mary Lillian Feeley, was prominent on the silver screen and was rapidly becoming a star of the first magnitude when she married and abandoned her career. Mrs. Bush is a talented young woman.

The college department of St. Patrick's Seminary now being erected at Los Altos will be ready for the fall term for the young collegians to enter. A large class will be enrolled, probably 200. The seminarians will occupy the buildings here.

The proposition to establish a branch school at Stanford Park as advocated by the Menlo Park Improvement Association is meeting with some opposition. Many believe it would detract from the central school here in that it would reduce the income and contemplated improvements could not be completed. Then, too, the taxpayers think they are already sufficiently burdened.

George Richard Angus, only son of Mr. and Mrs. George Angus of Menlo Park and Miss Esther Carter, daughter of Mr. and Mrs. Elmer J. Carter, were united in marriage at San Jose last Saturday. It was a quiet affair, only the immediate relatives of the young couple being present at the ceremony which was performed in Trinity Episcopal church, San Jose. Rev. Porter officiated. After the wedding the bride and groom motored to Los Angeles, where they will remain for two weeks. Mr. Angus is an overseas man having enlisted in the medical department of the army at the beginning of the war, serving through the conflict and appearing on many battlefields. He holds a lucrative position with the California Packing Company of San Francisco and has been for a number of years a commuter. The bride is a graduate of Sequoia Union High School at Redwood City. She is a lovely young woman, with a wealth of good common sense, and will make a good helpmate for her husband. Mr. and Mrs. Angus upon their return.

Re-Elect
**JOHN
McEBAN**
Incumbent
Supervisor
THIRD TOWNSHIP

The man with a record that speaks for itself.

turn from their honeymoon will take an apartment until their new home in the Winchester tract, Atherton, is completed. The numerous friends of the young couple wish them a happy and prosperous wedded life.

August 9 has been set as the date for the children's horse show at the Menlo Park Circus Club. This affair, which will be similar to that given last year, is arranged and presented entirely by the children of the community and all youngsters who have horses or ponies are invited to enter. Classification lists are to be sent out Wednesday, and any one who wishes to enter mounts may secure such lists through Miss Evelyn Taylor. There will be three galloped and high jumping classes for horses, a bending class for ponies, a driving class for ponies and a number of other classifications. An entrance fee of 50 cents for each class that horse or pony is entered in will be charged.

J. W. Shilling, Nevada stockman, is expected to be here as a judge of the show. Prizes will be awarded on a basis of 25 per cent for riding and 75 per cent for the mount itself.

Admission to the show will be \$1 for adults and 50 cents for children.

Mrs. James L. Flood and Miss Mary Emma Flood are expected home in about ten days from New York. They will pass the remainder of the summer at "Linden Towers," their Menlo Park home.

D. E. O'Keefe and his son, Edward, left yesterday for the Pitt river, Shasta county on a fishing trip. They will be gone for several days.

Julien Hart and Fire Commissioner C. R. Walter returned yesterday from Los Angeles, where they spent two weeks vacation. They were pleased with the business prospects there.

Peter Cherichni, the local sportsman, is out with a brand new Ford sedan, which he drives with all the sangfroid of an expert.

The Peralta Pigeon farm here yesterday shipped 250 White King pigeons to Arcadia, Los Angeles. Large shipments are being made to all parts of the country by the local institution almost every day. The enterprise is becoming a big industry.

Menlo Park was always a good locality for "squabs," but Runnymede is where the chickens grow.

Menlo Park is putting on some airs. It will soon have a bank where people may deposit their love change and draw their breath. Its coming will fill a long-felt want; business men will rejoice and everybody will be happy.

There is a large registration of voters in all the Menlo Park precincts, notwithstanding that the last day for registration is on July 26. Over 600 votes are registered at the base hospital. This is the largest precinct in the county. The voters there were to be much sought after by the politicians as they will cast their ballots almost as a unit on the various candidates.

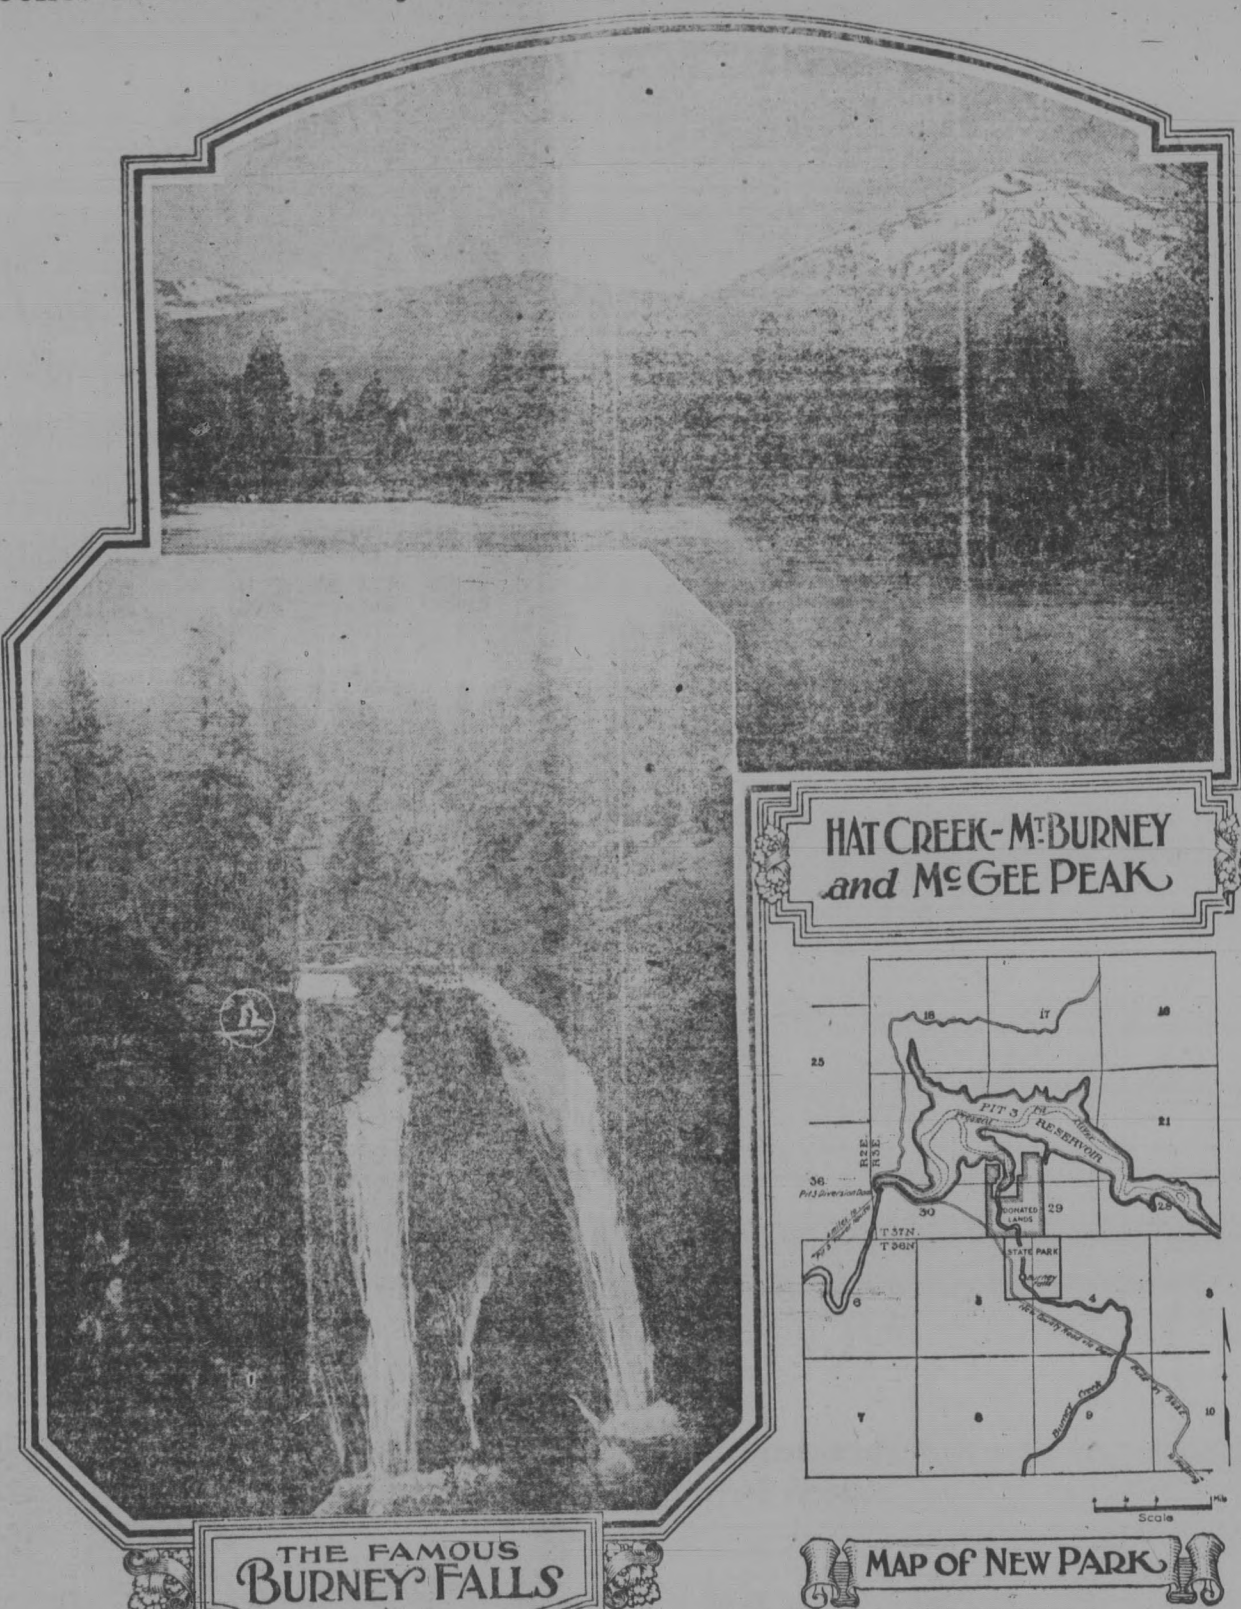

The annual retreat for pastors of parishes of the diocese began at St. Patrick's Seminary last Monday evening and will conclude this morning. Many former priests of the Church of the Nativity attended. They will visit their former parishioners today.

Next Monday the assistant pastors will make the retreat. The Very Reverend Joseph Rhode, O. F. M. is conducting the spiritual exercises for both retreats. He is one of the ablest theologians in the country.

James T. O'Keefe and family leave on a ten-day motor trip through the state today. All points of interest will be visited by them.

James Glynn, the local artist who is employed on the Chronicle, is forging to the front as a newspaper cartoonist. His efforts appearing

Scenes to be Visited by Editors of State as Guests of P. G. & E. Co.

HAT CREEK-McBURNAY
and McGEE PEAK

THE FAMOUS
BURNAY FALLS

MAP OF NEW PARK

under the caption "Dizzy Dally" in the comic section of the Chronicle is attracting local attention. Glynn will soon seek Jimmie Swinerton's laurels. The latter resides in Palo Alto, which goes to show that this is an artistic atmosphere.

Miss Mary Emma Flood and Miss Edith Grant, who sailed from Europe on July 9, have arrived in New York and will visit with friends in the East for a few days. They will return to California early next week.

Mr. and Mrs. Frank King have returned to their Menlo Park home from El Mirasol, where they spent the earlier part of the summer.

Mrs. Margaret H. Warren died Thursday at Atherton. Mrs. Warren was a native of Watertown, N. Y. Three children, Frances J. Stewart, Ida de Guerra and E. Marion Warren, survive her.

Menlo Circle, Companions of the Forest, entertained grand officers of the lodge in Duff & Doyle hall, Menlo Park.

Walter Gale of Los Angeles is passing his vacation at the home of his parents, Mr. and Mrs. A. W.

Several hundred editors of this section of the state are enjoying an excursion into the wonderland of Shasta county as the guests of the Pacific Gas and Electric Company. The editors will visit at the various power developments of the company in the mountains of the Shasta vicinity, and will be shown some of the largest power houses in the world. These trips are given periodically by the electric company in order that the editors of the state may be conversant with the development that is being made in the way of power development.

Gale. Mr. and Mrs. Arthur Gale are expected later in the week for a visit.

SOUTH CITY WOMAN SEEKS DIVORCE ON CRUELTY CHARGES

In a complaint filed this week in which Mrs. Helen Katsules asks for divorce from her husband, Theodore Katsules, Mrs. Katsules charges the defendant with extreme cruelty and cites instances of cruel and inhuman treatment. The Katsules were married in Greece in 1905. They have four children, the eldest is 12 years and the youngest 19 months. The plaintiff is represented by Attorney John F. Davis.

When a man announces that he has "conscientious scruples" about helping another, he's stingy.

The modern banquet is a place where a lot of bored men go to eat words.

A friend is one who lies to you to save your feelings even when you know he knows you know he is lying.

Many a man enjoys life riding in his ten-year-old silver because his imagination he is riding in his new year's limousine.

A Picture for Everybody

The Crowning Triumph of the Motion Picture!

DOUGLAS FAIRBANKS

in Alexander Dumas'

"The Three Musketeers"

Next Wednesday and Thursday, those who love the films for their entertainment and educational value, will revel in the wonders of production art and acting talent that will be revealed to them in this amazing celluloid transcription that has been made from the printed page. Those who have been skeptical about the place of motion pictures among the arts, will have final and convincing proof that Great and Fine things can be done—and have been in this play.

Jessie St.

Our General Manager for 32 years, Mr. H. N. Cauwet, is taking a world trip and writes:

"Have visited the principal Cleaning and Dyeing Plants in the East and in Europe, making me more than ever proud of the 'Thomas Works,' for I have seen none so large, so complete in equipment, and in the quality of the work produced."
